SUMMARY

Final-year B.Tech (IoT) student and AI/ML practitioner with 9 months of LLM experience across RLHF evaluation pipelines (Outlier, Ethara AI) and shipped GenAI applications — including a production RAG document Q&A system (Cohere, Groq, ChromaDB, Streamlit) backed by 45 automated tests and a live deployment. Full-stack background in React, TypeScript, Node.js, and PostgreSQL. Seeking an AI/ML intern role to build and evaluate production AI systems.

TECHNICAL SKILLS

- **AI / ML:** LLM Response Evaluation, RLHF, Prompt Quality Assessment, RAG Pipelines, Vector Databases (ChromaDB), Cloud Embeddings (Cohere), Groq API Integration
- **Programming:** Python, Java, JavaScript, TypeScript, HTML, CSS
- **CS Fundamentals:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Frontend:** React, Tailwind CSS
- **Backend & APIs:** Node.js, Express.js, RESTful API Design & Integration, JWT Authentication, Postman
- **Databases:** SQL, PostgreSQL, Prisma ORM
- **Embedded & IoT:** ESP32, Arduino Uno, GSM/GPS Modules, ThingSpeak, Sensors, PCB Design
- **Tools:** Git, GitHub, VS Code, Streamlit, LangChain
- **Spoken:** Hindi (native), English (fluent)

EXPERIENCE

Outlier (Remote / Freelance) — AI Response Evaluator, RLHF | May 2026 – Oct 2026

- Evaluate AI-generated responses against correctness, helpfulness, and safety rubrics in large-scale RLHF pipelines, directly improving model alignment quality.
- Assess bilingual Hindi/English model outputs — flagging factual errors, tone issues, and reasoning gaps — and deliver structured written feedback feeding retraining cycles.

Ethara AI — LLM Post-Training Intern | Jan 2026 – May 2026

- Curated and annotated large-scale training datasets across LLM post-training pipelines using structured quality-assessment rubrics.
- Identified systematic error patterns in AI outputs and delivered findings that accelerated iteration cycles.

PROJECTS

Ask Your PDFs | RAG Document Q&A; — Oct 2026 [\[GitHub\]](#) [\[Live Demo\]](#)

Python, Streamlit, Cohere Embeddings, Groq LLM, ChromaDB, LangChain

- Built and deployed a RAG Q&A app: PDF ingestion → text chunking → Cohere cloud embeddings → ChromaDB cosine search → Groq LLM answers grounded only in retrieved context, with page-level citations.
- Production-hardened: 45 automated tests, per-session isolated workspaces, upload validation, retry-with-truncation embedding pipeline, and prompt-injection-aware system prompts.

Nerve IDE | AI-Powered Coding Interview Platform — Jun 2026 [\[GitHub\]](#)

React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma ORM, Monaco Editor, Groq API

- Built and deployed a full-stack platform simulating technical interviews end-to-end via clean REST APIs, supporting concurrent live sessions.
- Integrated the Groq API to auto-generate interview questions and score candidates with actionable feedback in real time; embedded the Monaco Editor as the in-browser code editor.
- Implemented JWT authentication with role-based access control and a normalized PostgreSQL/Prisma schema for sessions, questions, and scoring; validated endpoints with Postman.

Industrial Gas Safety Monitoring System | Embedded Safety System — Nov 2025 [\[GitHub\]](#)

ESP32, MQ-2 / MQ-135 Gas Sensors, GSM, Relay, PCB Design

- Built an ESP32-based hazardous-gas detection system reading MQ-2/MQ-135 sensors, sending SMS alerts over GSM and triggering the exhaust system through a relay.
- Designed a custom PCB for the circuit and logged sensor readings to the cloud for remote monitoring.

Women Safety Device | IoT-Based Wearable — Oct 2025 [\[GitHub\]](#)

ESP32, GSM, GPS, ThingSpeak

- Engineered a rechargeable ESP32 wearable with one-tap SOS alerts over GSM, live GPS location tracking, fall-detection logic, and a real-time ThingSpeak cloud dashboard.

EDUCATION

Madhav Institute of Technology and Science, Gwalior — B.Tech in Internet of Things (IoT), 2023 – 2027; CGPA: 7.62/10.0

Coursework: DSA, OOP, DBMS, Operating Systems, Computer Networks

Kendriya Vidyalaya No. 1, Gwalior — Class XII, 85.4% (2022); Army Public School, Gwalior — Class X, 81.6% (2020).

LEADERSHIP & ACHIEVEMENTS

- Campus Ambassador, Codefest, IIT BHU (Dec 2024 – Feb 2025); Event Organizer, Volleyball Tournament (Sep – Nov 2023).
- IoT Components Supply Initiative — supplied affordable IoT hardware to 20+ fellow students, lowering the barrier to embedded-systems experimentation on campus.
- Completed the Deloitte Technology Job Simulation on Forage.
